

ADF Engineering welcomes Andrew Brinkdopke

MIAMISBURG, OHIO - March 21, 2011 - ADF Engineering, Inc. announced today the hiring of Andrew Brinkdopke as a Process Engineer in their Miamisburg, Ohio office. ADF is an engineering and consulting firm specializing in the Food, Feed, Fuel and Bioscience industries. Their headquarters are located in Miamisburg, Ohio.

"We are thrilled to have Andrew join ADF. He brings with him vast experience both in process engineering and project management," said Alex Fishman, President ADF. "In this position Andrew will be focused on process engineering with our clients in the food processing and consumer products industries."

Brinkdopke is a graduate of the University of Toledo with a Bachelors Degree in Chemical Engineering. Prior to joining ADF Andrew was employed by Kimberly Clark.

ADF Engineering welcomes Cory Anderson, PE

OMAHA, NE - March 21, 2011 - ADF Engineering, Inc. announced today the hiring of Cory Anderson, PE as Project Manager in their Omaha, Nebraska office. ADF is an engineering and consulting firm specializing in the Food, Feed, Fuel and Bioscience industries. Their headquarters are located in Miamisburg, Ohio.

"We are very pleased to have Cory join ADF. He brings with him vast experience in project management, consulting and engineering for the Ethanol and Food industries," said Alex Fishman, President ADF. Fishman added, "We continue to see opportunities in the Omaha market and look forward to having Cory be a part of it."

Anderson is a graduate of the University of Nebraska with a Bachelors Degree in Mechanical Engineering. Cory is a Licensed Professional Engineer and prior to joining ADF he was employed with Jacobs Engineering.

ADF Engineering

Opened in 2003, ADF Engineering, Inc is a full-service engineering and consulting firm serving the Agri-Processing, Specialty Chemical, Renewable Fuel and Bioscience industries. ADF uses the latest state-of-the-art design software, 3-D laser scanning, and 3-D modeling during design and construction phases. ADF offers a full spectrum of engineering expertise at four strategic locations: Miamisburg, OH; Omaha, NE; Memphis, TN; Mulberry FL. They have provided engineering solutions throughout the United States and Canada, as well as across the Globe, including China and Australia.
